

Title: **AM-66-1 to R11: For an industrial role for electric cars serving the climate, employment, the environment and social justice.**

Tabled by: Vihreät - De Gröna

Draft text

Delete from line 66 to 68:

- ~~• considers as an effect that highway charge point equipment on travel corridors that are also served by rail services should not be considered a priority.~~

Explanation / Comment

Electrification also along already rail-served long-distance routes can need to be prioritised in many situations, for regional circulation or along population corridors. We thus propose to remove the whole of point 2.
