

Title: **AM-55-1 to R11: For an industrial role for electric cars serving the climate, employment, the environment and social justice.**

Tabled by: Vihreät - De Gröna

Draft text

Insert after line 55:

- give preference to shared-use and commonly owned EVs in access to charging infrastructure and parking as well as beneficial conditions of taxation ;

Explanation / Comment

Shared-use, peer-to-peer-sharing and platform rental of EVs face hurdles that need to be removed, and as renting or lending rather than owning any vehicle reduces overall use and total resource use it should be promoted.
