Draft text

Insert from line 11 to 16:

The main objective of an environmentally friendly transport policy is to reduce the use and dependence on private cars wherever possible, through the promotion of public transport. Beyond the central issue of greenhouse gas emissions, the car has negative and systemic effects, against which we are fighting: inefficiency and congestion, air, noise and water pollution, hegemonic use of public space, sedentary lifestyle, road safety, urban sprawl, land artificialisation, etc.
