

Title: **AM-5-7 to R11: For an industrial role for electric cars serving the climate, employment, the environment and social justice.**

Tabled by: Bündnis 90/Die Grünen

Draft text

Delete from line 5 to 10:

~~Electric mobility is developing at an extremely rapid rate and this growth will accelerate because it corresponds to the strategy chosen by European public authorities to decarbonise mobility. Thus, the massification of the electric mobility market is increasing. This motion aims to set the framework for what could be an ecological vision of the EV, genuinely favouring our social justice and environmental goals.~~
