Draft text

Insert from line 11 to 13:

The main objective of an environmentally friendly transport policy is to reduce the use and dependence on private cars wherever possible, starting by challenging the socially-constructed need of ownership, and promote an efficient service-oriented shared usage allowing to reduce the overall private car fleet, while increasing that of climate-neutral buses, as well as trams and modernized rail rolling-stock. Beyond the central issue of greenhouse gas emissions, the car has negative and systemic effects,
